The Inter-Agency Network for Education in Emergencies (INEE) is a global network created by the United Nations to study and to raise international awareness of the needs and challenges of education in conflict-affected and fragile states. The INEE advocates for children's rights to safe and quality education in crisis settings, and develops policy and practice guidelines for "conflict-sensitive" educational provision among conflict- and crisis-affected populations.

Two of the main guidelines developed by the INEE include the [INEE Minimum Standards for Education](#) and the [Conflict-Sensitive Education Toolkit](#). For more information on the work of the INEE, visit: <http://www.ineesite.org/en/what-we-do>
